NOTRAX®
FLOOR MATTING

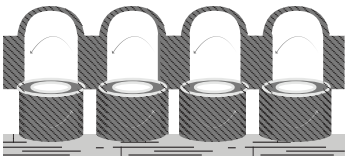

Notrax® introduces the SkyStep™ line of Anti-Fatigue Rubber Mats.

Based on the award-winning design of Notrax SkyWalkerHD™, the SkyStep™ is the newest addition to the Notrax anti-fatigue matting range.

These 13mm thick standalone rubber mats come in two sizes, 60 x 90 cm and 90 x 120 cm, and have a gritted bubble surface pattern to provide maximum fatigue relief while maintaining its anti-slip properties.

Ergonomically engineered, the SkyStep™ utilizes the power of air. The mat is designed to suction to the ground to prevent the mat from shifting while trapping air in its chambers. These air pockets combined with the resiliency of the rubber create an ultimate cushioning effect while keeping the mat lightweight.

SkyStep™ is moulded from a high quality industrial rubber compound with integrated bevelled edges on all four sides to prevent tripping on the mat. Three versions available for specialized applications in a dry work environment: NR natural rubber for general purpose applications, NITRILE rubber that is resistant to most industrial oils and ESD static dissipative rubber formulated to drain static electricity from workers to safeguard against static shocks and protect equipment.

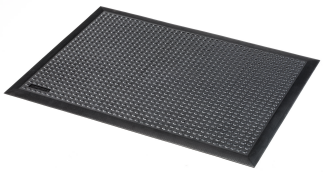

Art. 455 SkyStep™

- Made of 100% heavy duty natural rubber compound.
- For general purpose applications.
- Two sizes: 60x90 cm and 90x120 cm

PRODUCT TESTING

Art. 456 SkyStep™ Nitrile

- Made of 100% heavy duty nitrile rubber compound.
- Resistant to most industrial oils
- Two sizes: 60x90 cm and 90x120 cm

PRODUCT TESTING

Art. 457 SkyStep™ ESD

- Made of static dissipative 100% natural rubber compound.
- Electro Static Discharge (ESD) static dissipative rating 10^5 - 10^7 Ohms.
- Two sizes: 60x90 cm and 90x120 cm

PRODUCT TESTING
